§ 24.313 Inventory record.

A proprietor who files monthly or quarterly reports shall prepare a record of the physical inventory of all wine and spirits in storage at the close of business for each tax year, or where a different cycle has been established, the inventory will be taken at the end of that annual period. Such proprietors may use an annual inventory period different from the period beginning July 1 and ending June 30 by submitting a notice to the appropriate TTB officer. However, proprietors who file quarterly reports must select an annual inventory period that begins on the first day of a calendar quarter. Proprietors who file reports on a calendar year basis under the provisions of § 24.300(g) of this part shall take the physical inventory at the close of the calendar year. The inventory record will be retained on file with the proprietor's TTB F 5120.17, Report of Bonded Wine Premises Operations, for the reporting period when the inventory was taken. If a proprietor who files monthly reports takes a complete inventory at other times during the year, losses disclosed will be reported on the TTB F 5120.17 and the inventory record will be maintained on file with the report for each month when an inventory was taken. The proprietor's inventory record will include:

(a) *Description of wine.* (1) State the generic name (e.g., port, claret) or designate as a white, rose or red table or dessert wine; or

(2) Wine intended to be marketed with a vintage date, varietal name, or geographical designation will be appropriately identified, e.g., 1977 Napa Valley Pinot Noir; and

(3) If the wine is other than grape wine, state the type, e.g., orange, honey.

(b) *Bulk containers.* Tanks containing wine will be listed by tank number. Bulk containers which are barrels or puncheons containing the same kind of wine may be summarized, e.g., 10 barrels—red table wine 500 gals.;

(c) *Cases, bottles and other similar containers.* The total volume of one kind of wine in cases, bottles and similar containers may be entered as one item and appropriately identified;

(d) *Inventory summary.* The volume of bulk and bottled or packed wine will be totaled separately in wine gallons or in liters, by tax class, and reported on the TTB F 5120.17. Spirits will also be totaled and reported on the TTB F 5120.17; and

(e) *Inventory record.* All inventory pages will be numbered consecutively and the last inventory page will be dated and signed after the statement, “Under penalties of perjury, I declare that I have examined this inventory record and to the best of my knowledge and belief, it is a true, correct and complete record of all wine and spirits required to be inventoried.” (Sec. 201, Pub. L. 85-859, 72 Stat. 1381, as amended (26 U.S.C. 5367, 5369))

§ 24.314 Label information record.

A proprietor who removes bottled or packed wine with information stated on the label (e.g., varietal, vintage, appellation of origin, analytical data, date of harvest) shall have complete records so that the information appearing on the label may be verified by an TTB audit. A wine is not entitled to have information stated on the label unless the information can be readily verified by a complete and accurate record trail from the beginning source material to removal of the wine for consumption or sale. All records necessary to verify wine label information are subject to the record retention requirements of § 24.300(d). (Sec. 201, Pub.

§ 24.315 Materials received and used record.

(a) *General.* A proprietor who produces wine shall maintain a record showing the receipt and use or other disposition of basic winemaking materials received on wine premises. The record will show the date of receipt, the quantity received, the name and address from whom received, and the date of use or other disposition of the materials. For any material stored off wine premises, invoices or other commercial papers covering the purchase will also be kept available for inspection. Where grapes (or other fruit) received on wine premises are used in producing juice to be stored for future use or for removal, the record will show the quantity used and juice produced.

(b) *Concentrated fruit juice.* When concentrated fruit juice or must is produced or received, the record will show the degrees Brix of the juice before and after concentration, the volume of juice before and after reconstitution, the volume of reconstitution water used for each dilution of the concentrate, and, if volatile fruit flavor was added, the kind and volume. Where fruit or juice is used to produce concentrated juice, the record will also show the quantity of fruit or volume of juice used. If the concentrated fruit juice is removed for use by another proprietor, a copy of the certificate required by § 24.180 will be retained. The record of concentrated fruit juice will contain the information necessary to determine compliance with the limitations prescribed in § 24.180. Incomplete or inaccurate records of concentrated fruit juice may result in the wine produced from the concentrated fruit juice to be designated substandard.

(c) *Volatile fruit-flavor concentrate.* If volatile fruit-flavor concentrate is received, the record will show the volume received, the fold, the percent of alcohol by volume, any loss in transit, and the use or other disposition of the volatile fruit-flavor concentrate. (Sec. 201,
